## MANY PLEAS OF GUILTY

## IN SUPERIOR COURT

## THURSDAY

With pleas of guilty having been entered in the Superior Court today by a number of defendants, the final chapter in the history of the recent bootlegging raid, and prosecution by County Attorney J. F. Ross was practically closed, and marked an era of law enforcement in the State of Arizona.

Judge Lockwood, who was quite ill yesterday, while hardly able to be about, attended court, and finished up with a big day's work.

The case of the State vs. Fred Guise, charged with highway robbery at Bisbee was on for trial, but just before trial the defendant entered a plea of guilty to grand larceny and was given a sentence by the court of not less than 1 year nor more than 10, and was remanded to the Sheriff.

Following the disposition of the Guise case, Juan Rodriguez and Alfonso Hidalgo pleaded guilty to 2nd degree burglary and received sentences of not less than 3 years each. Willie Patterson, known as the "girl hobo," who was charged with kidnapping a 13 year old girl from Douglas, taking her to El Paso, was the next to plead guilty and Judge Lockwood, after administering a sound lecture, and some fatherly advice, noted out a ten years' suspended sentence; concluded that the defendant would return to her home at Glendale, Calif., and for the next ten years be a peaceful and good citizen. The "girl hobo" thanked the court for his advice and promised she would lead an upright life henceforth, and she was released.

Following this case came the bootlegging cases and the first to enter a plea of guilty was John Gregovich, who received 30 days and \$300 on one case, and a 2 years' suspended sentence on a second charge. Alfonso Hernandez was next, and sentence was deferred in his case until a later date. Barney Bono, who was tried last week, his case having resulted in a hung jury, entered a plea of guilty and day for sentence was set for Sept. 26, and he was released on \$300 bail. Augustin Gonzales also pleaded guilty and he will be sentenced later. The case of the State vs. Wm. Speed was continued until the calling of the next criminal calendar.

Following is the special venire which reported today:

Henry Bohnfolk, J. W. Hampton, James L. Wilkins, B. R. Callison, P. C. Collins, of Lowell; J. N. Gaines, Reese Cornelius, of Tombstone; L. M. Cook, Wilcox; John Sone, Tombstone and R. E. Root of Wilcox.

## FRIDAY

Today was another good day for pleas of guilty in the Superior Court when five pleas of guilty to various charges were entered, and sentences imposed by the court.

Tom Collins, the man who held up two men at Lowell Wednesday, shooting one man through the arm, and who was routed by a woman who struggled hand to hand with him for the possession of a gun, was the first to plead and received a sentence of not more than 10 nor less than 1 year in the state penitentiary. The defendant stated that he could not remember a thing regarding the hold-up and that he was drunk at the time, but the court, while not considering this as a good excuse, handed out the minimum sentence, on account of the age of the man, and conditions surrounding his act.

The balance of the pleas were on charges of bootlegging, and Buck Tyler received 90 days and \$25, Pat Dalton, 90 days and \$25, Jose Rodriguez 4 months and \$25, while W. Carson, who has already served several months in jail, awaiting trial, was given a two years' suspended sentence and a good lecture by the court on the matter of bootlegging. After the court had finished the defendant said that he had become so thoroughly satisfied that bootlegging doesn't pay and would forever resist from breaking the law in this manner.

## PATENTS WATER FILTERER

## AND COOLER.

Besides being a mining promoter and engineer, V. G. Mellgren, general manager for the Two Peaks Mining company, of Turner, is an inventor of ability, as shown by a large working model of a family water distiller, which he has on display at the Arlington hotel, and on which he has just been granted a patent. The distiller, which is destined to become of general use in the household, especially where the water is impure for drinking, is made of galvanized iron, and works on the ordinary cook stove. After the water comes to a boiling point, forming steam, it rises through a tube to the top, about two feet, where it enters a spiral tube leading to a tank equal the size of that containing the boiling water. On its way downward through the tube the steam which has by this time become water, is cooled and goes into the middle tank, ready for use, all impurities remaining in the bottom tank.

The model which Mr. Mellgren has made at the McSparron Tin Shop and will no doubt, when finally put on the market, be a rapid seller.

Mr. Mellgren has also received a patent on a cooler for canteens, and has three other patents pending which will be granted in a short time.

## SMALLPOX EPIDEMIC

## AT MORENCI

## CLIFTON, Sept. 19.—Morenci is

suffering from a smallpox epidemic, the magnitude of which far overshadows that which visited Clifton some two years ago. Every effort is being exerted by the county health officer, Dr. L. A. W. Burrows, and Morenci physicians to check the disease and prevent its spread over a larger territory. At the present time it is reported that there are patients in the pest house at Bunkers, and nearly every day one or two new cases are developed.

As a result of the epidemic the Morenci public schools have been ordered closed, as well as the Morenci Club, moving picture shows and all public places of amusement, the only business being kept open are the company stores.

It is thought that the epidemic was introduced into the mining town by Mexicans who have recently arrived from across the border, and unless a change for the better is evident and the spread of the disease can be effectually checked it is more than probable that Morenci will be placed under a strict quarantine.

A large new pest house is being erected some distance below Bunkers to care for the patients and the work is being rushed to completion in order to take care of the many cases.

## BOOTLEGGERS CAMP WILL

## SOON BE ESTABLISHED.

The bootlegger camp, which has been sanctioned by the board of supervisors, will be established within the next two weeks, according to County Engineer J. F. Ryan, who was in the city today with Engineer Kimmel, to confer with Clerk Karger of the board, on preliminary arrangements.

Mr. Ryan states that the locating party which has been out several days will be at the edge of Government Draw by tonight, and within the next two days will have completed their survey of the road. Mr. Ryan and Mr. Kimmel came to Tombstone over the proposed route which will come into Tombstone near the Emerald mine, following the foothills all the way from the Bisbee Extension into Tombstone.
